

# Help Sea Turtles survive

Leatherback sea turtle hatchling (*Dermochelys coriacea*) photo by Daniel Evans/CCC

Every year our beaches host a gathering of sea turtles. Sea turtles migrate thousands of miles from their feeding grounds to nest on our beautiful beaches. Unfortunately, sea turtles face many threats, such as artificial lighting, ingestion of debris and plastic bags, and pollution. With your help we can continue to keep our beaches sea turtle friendly and clean of debris that can harm wildlife. Join NESTS today!

For more information on how you can join with your neighbors to protect sea turtles and get started on your way to becoming a NESTS Partner, call 1-800-678-7853 or visit [www.nests-certified.org](http://www.nests-certified.org)

This poster was funded by a grant awarded from the Sea Turtle Grants Program which is funded from proceeds from the sale of the Florida Sea Turtle License Plate. Learn more at [www.helpingseaturtles.org](http://www.helpingseaturtles.org)
